

MONDAY MESSENGER

Upcoming Events:

- Monday, November 21: Ms. JoAnn's class to PIC
- November 24-25: Thanksgiving, No School
- Saturday, December 3: Elementary Forensics
- Monday, December 5: Mr. Nick/Ms. Christie's class to PIC
- Tuesday, December 6: Winter Program, 7:00 pm

Trash and Recycling

Last week Mr. Nick's science class focused on the topic of recycling. This is an important topic anywhere in the world, but especially here on Saipan. Our home island has limited space for all the trash we create.

The students collected data from home about the number of storage containers used, created a graph, and discussed their findings. The first step in finding a solution is awareness. Our lower elementary students are making us aware and making a difference!

CNMI Cross Country Finals

Our students are multi-talented, balancing academics and other interests at school and outside of school. Four of our middle school students participated in the CNMI cross country finals that were hosted at Lau Lau Golf Course early Saturday morning: Kaden Church, Max Church, Blake Mister, and Dylan Mister. They all ran fantastic races and joined many other students from schools across the island. Dylan won first place and Max earned second for the 11 and under division. A big shout out to the volunteers that made it all possible.

Family Time

Ms. Christie's class focused on learning about families last week and how we fit into our families. For more pictures of this unit, visit our school website at: saipanprivateschool.com

You Sunk My Battleship!

Middle School students enjoyed learning about coordinate maps last week and tried out their skills by playing a game of Battleship. Even with GPS systems, map reading skills are essential for interpreting data in today's world.
