Spring Play, evening

## Whispering Palms Science Fair

We scheduled our own Science Fair this year, inviting students to search their curiosity to develop a science question that the universe needed answering. Instead of having the science fair run as a competition, we redesigned it to be a meeting of minds between our students, their work, and real scientists from the Saipan community. Our special thanks goes out to three scientists who donated their evening to meet with our students: Dr. Emma Murray, a biology instructor at NMC, Kevin Donmoyer from the Department of Fish and Wildlife, and Joel Phair, a pharmacist at PHI. More pictures of the Science Fair are located on our school website.
